Mr. Luke N. Fourwirk  
PharmaCo  
555 Brattle Street  
Cambridge, MA 02137

Dear Mr. Fourwirk:

I am a first-year MBA student at Boston University. This letter is to express my interest in a potential summer **Marketing Internship** at PharmaCo. I am extremely impressed with PharmaCo's commitment to developing infectious disease products. My recent conversation with you has confirmed my interest in PharmaCo, and I am now writing to request an invitation to interview for a summer intern position.

At this moment, I am completing a global market research consulting project for Millennium Pharmaceuticals in which I am honing research and analysis skills to better understand patients' current perceptions and anticipate their future needs. As a product development associate (project manager) at Amgen, I led cross-functional teams toward successful registration of new pharmaceutical products with international drug regulatory authorities. In this process, I was exposed to all facets of drug product development and very much enjoyed being a part of a team dedicated to bringing new products onto the market. All of this has fueled my desire to pursue a career in product marketing.

With my previous experience in product development and current business studies in the health sector industry, I believe I have the combination of skills and qualities you are looking for in a successful intern. I am excited by the strong potential fit I see with PharmaCo. Particularly, I believe that my passion for meeting unmet medical needs fuels a high degree of initiative, which thrives in a driven, fast-moving, and entrepreneurial environment such as that of PharmaCo.

Attached, please find my resume for your review. I welcome the opportunity to meet with you to discuss how I might be an asset to your organization this summer. Thank you for your time and consideration.

Sincerely,

Kuv R. Leddar  
MBA Candidate, Boston University
